

Tellico Times

I wish to thank everyone who takes the time to look at my Web page. For a time I have wanted to find some way of helping people who move to the Village avoid the some of the pain of dealing with the unknown.

I know when we arrived here and began looking for a builder we were pretty much overwhelmed and found little help from the POA. As a homeowner or potential homeowner, it is truly "the buyer beware."

When we were in the midst of building I was frustrated and felt helpless. I hoped to find a way to help people. Thus when a project was part of my class, this seemed like a good way to get the word out.

I hope you find value in a potential site similar to this.

Again, thanks.
